All native plants are genetically adapted for our area  
and provide food in the form of nuts, seeds, berries, fruits, leaves,  
pollen, and nectar that best meet the needs of butterflies and  
other pollinators, as well as hummingbirds and  
other birds and wildlife.

NATIVE SHRUB  
Meadowsweet,  
*Spiraea latifolia*

The new **Native Nursery-Grown Plant Sale**  
will be held in conjunction with our  
**3rd Annual U.U.C.S.J.S. Native Plant Swap & Sale**  
on Saturday, May 7, 2011.

The Swap & Sale provides local gardeners with a source of inexpensive,  
or even free, native plants. We swap native perennials, shrubs and tree seedlings,  
as well as some non-natives especially beneficial to butterflies, hummingbirds, and birds.

*Experienced and newer gardeners alike pot up their extra native plants  
in order to participate. Those with no plants to swap can purchase  
up to three (3) plants for \$2 each.*

Also for sale this year at the Swap & Sale . . .

### Organic Heirloom Vegetables

. . . mouth-watering tomatoes, peppers, and eggplants!
